

MALE CONCEALED ARMOR SIZING WORKSHEET

Date:	Measured by:		
Officer Name:			
Badge/ID#:	Phone:		
Department/Agency:			
Shipping Address:			
City:	ST:	Zip:	
Distributor:			
Height:	ft.	in.	Weight lbs.

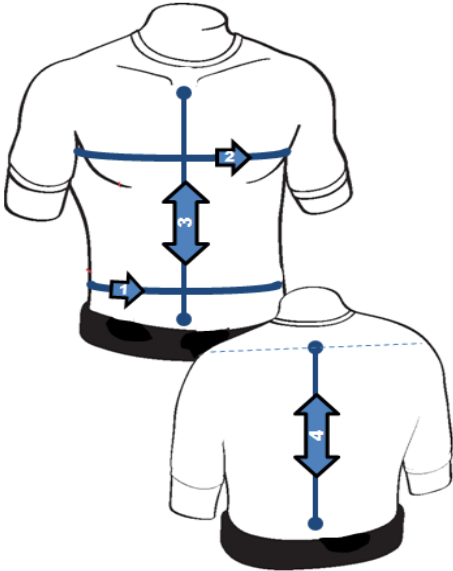

IMPORTANT:
DUTY PANTS AND DUTY BELT
MUST BE WORN TO ENSURE
AN ACCURATE FIT.

1. WAIST/GIRTH MEASUREMENT: With officer wearing duty belt and standing with arms at side, measure around the officer's waist at his widest point. This is generally 2" above the duty belt or along the navel line. It is extremely important to have a relaxed stomach for the most accurate measurement. Record measurement.

WAIST/GIRTH MEASUREMENT: in.

2. CHEST MEASUREMENT: With officer standing in front of you with arms raised in "T" position, wrap measuring tape around his chest at the widest point. Arms are then lowered to the side in relaxed position. Record measurement.

CHEST MEASUREMENT: in.

3. FRONT LENGTH: With officer in relaxed seated position, measure from the clavicle "notch" point down to 1" above the top of the duty belt. Keep the tape straight and ensure that the front panel bottom edge will not touch the duty belt or its accessories while the officer is seated. Record measurement.

FRONT LENGTH MEASUREMENT: in.

4. BACK LENGTH: While standing and with arms relaxed at their sides, locate the natural shoulder line and select a parallel point in the middle of the back. From that location, measure down to a point 1" above the duty belt equipment, ensuring that the bottom edge will not compromise the accessories on the officer's duty belt. Record measurement.

BACK LENGTH MEASUREMENT: in.

Vest Model Name:	Model #:	Threat Level:
